PubMed I

I Complete the following tasks by basic search.

(1) According to the search results in PubMed, the earliest article about Minamata disease was published in _____(year), this article was published in _____
_____(journal name).

(2) Search the articles about the relation between methylmercury and Minamata disease.

Search History:

The Number of Search Results: _____.

According to the search results in PubMed, the earliest article about this topic was published in _____(year).

To find this earliest article, the search results should be sorted by _____.

(3) search the articles about effect of insulin in the treatment of diabetes mellitus.

Search History:

The Number of Search Results: _____.

According to the search results in PubMed, the earliest article about the use of insulin on diabetes mellitus was published in _____(year), there were _____(number) articles related to this topic in this year.

Select the article written by *Banting FG* from the earliest articles mentioned above, record the citation form of it in the format of GBT7714.

II Complete the following tasks by field limiting search.

- (1) By using fields "MeSH Terms" and "Author", search articles by *Medawar PB* about the animal studies on transplantation or immunological tolerance from 1950 to 1976.

Search History:

The Number of Search Results: _____.

_____ (animal species) is the very first animal which was studied by *Medawar PB*.

- (2) By using fields "Title/Abstract" and "Author", search articles related to the topic in (1).

Search History:

The Number of Search Results: _____.

PubMed II

I Complete the following tasks by subject heading search.

(1) The MeSH term of "Cushing's disease" is Cushing syndrome.

The annotation of this MeSH term is: _____

This term was induced into MeSH in 1999 (year).

Prior to this term, _____ was used to index the related concept.

(2) The MeSH term of "Swift Disease" is Arsodysia.

According to the annotation of the MeSH term, this disease often results from chronic exposure to mercury which may result in _____ and _____.

List one of the hierarchies in which the term are arranged :

(3) The scope note about subheading "Etiology" in www.nlm.nih.gov/mesh/subhierarchy.html :

The subheadings below "chemistry" in hierarchy are: _____

The subheadings below "Therapeutic Use" in hierarchy are: _____

II Complete the following tasks by subject heading search.

(1) Search articles about role of X-Ray computed tomography in SARS-CoV-2 Infections since 2021. MeSH Terms: Subheadings: Search History : The Number of Search Results:
(2) Record the citation form of one related article in the format of GBT7714.

III Complete the following tasks by basic search and subject heading search.

(1) Search the article titled as "Gastroesophageal reflux intubated patients receiving enteral nutrition: effect of supine and semirecumbent positions" (PMID: 1433774) , list the <u>MeSH Major Topics</u> of this article. ① _____; ② _____; ③ _____; ④ _____.
(2) In MeSH system, the concept "cause of gastroesophageal reflux" is indexed as _____, "insertion of a tube into the stomach, intestines" is indexed as _____; "nutritional support given via the alimentary canal or any route connected to the gastrointestinal system" is indexed as _____.

China National Knowledge Infrastructure (CNKI)

Topic: the application of Traditional Chinese Medicine(中医药) in the treatment of amyotrophic lateral sclerosis(肌萎缩侧索硬化) or motor neuron diseases(运动神经元病).

1.Process of Retrieval

(1)Search Terms:

(2)Search Fields: Title, Keywords and Abstract(篇关摘)

(3)Fuzzy Matching

(4)Search History:

(5) The Number of Search Results:

2. Record the citation form of a journal article from your search results in the format of GBT7714.

3.Analysis of Search Results

(1)To find out which universities or institutions the relevant dissertations come from, the search results should be restricted in _____ (a type of documents) and analyzed by _____; according to your search results, _____ (the name of a university) contributes most of the dissertations about this topic.

(2) Write out the full name of these catalogues of academic journals:

CSSCI _____; CSCD _____;

AMI _____; EI _____.

(3) The relevant journal article with the highest number of citations was published on _____ (the name of a journal), The latest edition of the core journal catalogue by Peking University library that includes this journal was published in _____ (year).

% of th

OvidSP

II Complete the following tasks by fields restricted search.

(1) In OvidSP, The field related to affiliations of the authors is: _____.

Searches in field *Text Word* are conducted simultaneously in the fields _____ ,
_____ , _____ , _____ .

(2) Search the articles about the effect of anticholinesterase drugs or glucocorticoid on myasthenia gravis since 2005.

Search Terms:

Search History:

The Number of Search Results:

Record the citation form of a journal article from your search results in the format of
GBT7714.

III: Complete the following tasks by citation search.

Banks JL, Marotta CA. Outcomes validity and reliability of the modified Rankin scale: Implications for stroke clinical trials - A literature review and synthesis[J]. *Stroke*, 2007, 38(3): 1091-1096.

(1) According to the above bibliography, search this article by citation search.

Search History:

The Number of Search Results:

ScienceDirect & ClinicalKey

I Complete the following tasks by basic search and journals browse in Science Direct.

- (1) Search the journal *Social Science & Medicine* (the one supporting Open Access articles) by journals browse. The impact factor of this journal is _____, there are _____ (number) Open Access articles published in latest volume (excluding the volumes in progress) .
- (2) The most relevant article about mosquito-borne diseases in the journal mentioned above was published on volume _____ (number), the corresponding author of this article is _____, it has been cited by _____ (number) following documents.

II Complete the following tasks by advanced search in Science Direct.

Search the articles about malaria which was written by Guo-Qiao Li from 1980 to 1996.

Search Terms:

Search History:

The Number of Research Articles in Results:

Record the bibliography of one related article in the format of GBT7714.

III Complete the following tasks in ClinicalKey.

Among the results of the search "Itai-Itai": the total number of results is _____; there are _____ (number) *Journal articles* with fulltext, _____ (number) *Clinical Overview* and _____ (number) *Patient Education*, the newest *Clinical Trial* article was published in _____ (date).

In Clinicakey, "Itai-Itai" is classified as a hyponym of _____.

Web of Science Core Collection

I Complete the following tasks by basic search and results analysis.

- (1) Intraoperative Radiation Therapy (IORT) for breast cancer is a significant medical innovation, list top 5 countries which contributed most publications about this topic from 2012 to 2024 by basic search and results analysis.

Search Terms:

Search History & Number of Search Results:

To find the top 5 countries, analyze results by: _____.

Top 5 countries and exact percentages they contributed:

Country	Percentages

- (2) To find out all the agencies which fund the related researches in the top 1 country contributing most publications, the results in (1) should be refined by _____ and analyzed by _____.

The Top3 of the Funding Agencies are : _____

II Complete the following tasks by basic search and results analysis.

- (1) *EUROPEAN RESPIRATORY JOURNAL* is a high-impact journal in respiratory, list top 3 institutes or organizations which contributed most research articles about pulmonary fibrosis to this journal from 2016 to 2024.

Search Terms:

Search History& Number of Search Results:

Top 3 organizations which contributed most articles:

- 1 () ;
- 2 () ;
- 3 () ;

- (1) To find out the Top 10 of the highly-cited papers about pulmonary fibrosis on *EUROPEAN RESPIRATORY JOURNAL* from 2016 to 2024, the results in (1) should be sorted by: _____.
- _____ (number) of the Top 10 papers are Open Access Articles.
- _____ (number) of the Top 10 papers were contributed by researchers from USA.

III Complete the following tasks by basic search.

- (1) According to the clue of the article below, find out the name and organization of the reprint author by basic search.

Title: Circulating microRNA profiles in human patients with acetaminophen hepatotoxicity or ischemic hepatitis

Source: PROCEEDINGS OF THE NATIONAL ACADEMY OF SCIENCES OF THE UNITED STATES OF AMERICA, Volume: 111, Issue: 33, Pages: 12169-12174, Publication Date: AUG 19 2014

Search History & Number of Search Results :

Corresponding author's name: _____.

Organization of corresponding author: _____.

Format the bibliography of this article in the format of GBT7714.

Internet Medical Information Resources

I Complete the following tasks in section "Health Topics" of www.who.int.

(1) According to the information in topic "cervical cancer": cervical cancer is the _____ most common cancer in women; 99% cases are linked to infection with _____;
Being vaccinated at age _____ years is a highly effective way to prevent HPV infection; other important ways to prevent HPV infection include: ① _____;
② _____; ③ _____.

(2) According to the overview of topic "Zika virus disease", zika virus is transmitted by _____
_____ (name of insect).
According to fact sheets in topic "Zika virus disease", this virus was first identified in _____
(year).

(2) According to the information in topic "Tobacco", the theme of "World No Tobacco Day" in
2025 is "_____".
According to the information in fact sheets, Tobacco _____ are the most cost-effective
way to reduce tobacco use, especially among youth and low-income people.

II Complete the following tasks in section "Country" of www.who.int.

According the statistical data of China, answer the following questions.
the female life expectancy at birth in 2021 is _____; the neonatal mortality rate is _____
/1000 live births; number of people aged over 65 accounts for _____% of its total population;
The 4th leading cause of deaths in women is _____.

III Complete the following tasks in section "Drugs" of www.fda.gov.

(1) Search all the proprietary name (drug name) of the drugs which contain Riluzole as active
ingredient.
① _____; ② _____;
③ _____; ④ _____.
In the list of these drugs, the proprietary name of the drug identified as New
Chemical Entity is _____; the NDA number of this drug is _____;

the manufacturer of it is _____; the date when it was approved by FDA is _____; the review classification is _____.
(2) _____ is the active ingredient of the drug named as "TAXOTERE", it _____ (is/is not) the Reference Listed Drug of its kind, there are _____ companies manufacturing the therapeutic equivalents(strengthen: 160MG/8ML) of it.
(3) _____ is the proprietary name (drug name) of the drug containing RAMUCIRUMAB as active ingredient, the BLA number of this drug is _____, the administration route of this drug is _____.
(1) According to the relevant data in www.fda.gov: there have been _____(number) products recalls caused by Salmonella, _____(number) of which happened in dog food. There have been _____ (number) products recalls caused by <i>particulate matter</i>, _____ (number) of which happened in animal&veterinary products.

Appendix: Bibliography Format (GBT7714)

1. Journal Articles: .

著者. 题名 [J]. 期刊名, 年, 卷(期): 起止页码.

Author(s). Title [J]. Journal Name, Publication Year, Volume(Issue):Pages.

Note: The names of authors are separated by “,” ; record first three authors and use “et al” or “等” to denote the rest if the article was collaborated by more than three authors.

Examples:

[1]夏玉兵, 魏岚, 张远航, 等. 同步放化疗治疗局部晚期非小细胞肺癌的疗效观察[J]. 山东医药, 2010, 50(33):102-103.

[2]Kim YJ, Cheon JH, Lee SK, et al. Rebamipide may be comparable to H2 receptor antagonist in healing iatrogenic gastric ulcers created by endoscopic mucosal resection: a prospective randomized pilot study [J]. J Korean Med Sci, 2010, 25(4):583-588.

2. Monographs:

责任者. 题名 [M]. 出版地: 出版者, 出版年.

Author(s). Title [M]. Publication Place: Publisher, Publication Year.

Example:

孙玉文. 汉语变调构词研究 [M]. 北京: 北京大学出版社, 2000.

PEEBLES PZ. Probability, random variable, and random signal principles [M]. New York: McGraw Hill, 2001.
